

20. What happens to the learner after the learnership?

If the learner has completed the whole learnership and has been successful in the assessment, he/she will be awarded the qualification. If the learner has only completed part of the programme, he/she will be awarded the relevant credits through a statement of results from the SETA. There is no guarantee of employment by the workplace after the learnership, although it is hoped that qualified learners will be taken on.
