

**10. Do RPL certificates have the same value as those achieved through programme-based assessment?**

SAQA notes the following: 'Certificates obtained through RPL should be the same as those obtained through full time learning so as to prevent discrimination of the RPL learners. However, recording of RPL learners and their achievements should be kept by the respective ETQAs and providers involved. This will help track the success or failure of RPL implementation in South Africa.' ([www.saqa.org.za](http://www.saqa.org.za) in the FAQ section)
